

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Original) An article of clothing adapted to cover at least a portion of at least one of the torso, the waist and the head of a person wearing said article of clothing, the article being air permeable and comprising:

an odor absorbing substance incorporated into the article of clothing wherein the odor absorbing substance is susceptible to reactivation through the act of washing and drying the article of clothing; and

at least one of a bright, highly visible color scheme and camouflage color scheme provided on an exterior surface of said article of clothing;

whereby the odor absorbing substance absorbs at least a portion of the odors emanating from the wearer of said article of clothing thereby reducing the chances of wildlife detecting the wearer through the sense of smell.

2. (Original) An article of clothing according to claim 1 wherein the odor absorbing substance comprises activated charcoal.

3. (Original) An article of clothing according to claim 2 wherein the activated charcoal is in the range of 5 g/m² to 120 g/m².

4. (Original) An article of clothing according to claim 2 wherein the article of clothing is water repellent.

5. (Original) An article of clothing according to claim 2 wherein the article of clothing is water resistant.

6. (Original) An article of clothing according to claim 2 wherein the article of clothing is thermally insulated.

7. (Original) An article of clothing according to claim 2 wherein said article of clothing comprises a coat.

8. (Original) An article of clothing according to claim 2 wherein said article of clothing comprises a one-piece body suit.

9. (Original) An article of clothing according to claim 2 wherein said article of clothing comprises a mask.

10. (Original) An article of clothing according to claim 2 wherein said article of clothing comprises a hat.

11. (Original) An article of clothing according to claim 2 wherein said article of clothing comprises a shirt.

12. (Original) An article of clothing according to claim 2 wherein said article of clothing comprises a pair of pants.

13. (Cancelled)

14. (Original) An article of clothing according to claim 2 wherein the article of clothing comprises a base layer and the activated charcoal is impregnated into the base layer.

15. (Original) An article of clothing according to claim 2 wherein the article of clothing comprises a base layer and the activated charcoal is bonded to the base layer.

16. (Original) An article of clothing according to claim 1 wherein the article of clothing comprises a base layer and the odor absorbing substance is impregnated into the base layer.

17. (Original) An article of clothing according to claim 1 wherein the article of clothing comprises a base layer and the odor absorbing substance is bonded to the base layer.

18. (Original) An article of clothing according to claim 1 wherein the article of clothing is water resistant.

19. (Original) An article of clothing according to claim 1 wherein the article of clothing is thermally insulated.

20. (Original) An article of clothing according to claim 1 wherein said article of clothing comprises a coat.

21. (Original) An article of clothing according to claim 1 wherein said article of clothing comprises a one-piece body suit.

22. (Original) An article of clothing according to claim 1 wherein said article of clothing comprises a mask.

23. (Original) An article of clothing according to claim 1 wherein said article of clothing comprises a hat.

24. (Original) An article of clothing according to claim 1 wherein said article of clothing comprises a shirt.

25. (Original) An article of clothing according to claim 1 wherein said article of clothing comprises a pair of pants.

26. (Currently amended) A system for reducing human odors while hunting wildlife comprising:

a first article of clothing adapted to cover one of the torso region and groin region of a person wearing said article of clothing, said first article of clothing being air permeable and incorporating an odor absorbing substance in an amount sufficient to reduce the naturally occurring body odors of a person wearing said article of clothing; and

a second article of clothing being air permeable and incorporating an odor absorbing substance in an amount sufficient to reduce the naturally occurring body odors of a person wearing said article of clothing;

wherein the odor absorbing substance of the first and second articles of clothing, when worn by an individual, combine to reduce the odors emanating from the wearer ~~and thereby~~ in an amount sufficient to reduce the chance of detection of the wearer by wildlife having an acute sense of smell thereby permitting the wearer to be in close proximity to the wildlife.

27. (Original) A system for reducing human odors according to claim 26 wherein the second article of clothing comprises a mask.

28. (Original) A system for reducing human odors according to claim 26 wherein the second article of clothing comprises a pair of socks.

29. (Original) A system for reducing human odors according to claim 26 where the second article of clothing comprises a hat.

30. (Original) A system for reducing human odors according to claim 26 where the second article of clothing comprises a pair of gloves.

31. (Original) A system for reducing human odors according to claim 26 where the second article of clothing comprises a pair of pants.

32. (Original) A system for reducing human odors according to claim 26 and wherein said first and second articles of clothing are air permeable.

33. (Original) A system for reducing human odors according to claim 26 wherein at least one of said first and second articles of clothing is water repellant.

34. (Original) A system for reducing human odors according to claim 26 and further comprising a camouflage color scheme provided on at least one of the first and second articles of clothing.

35. (Original) A system for reducing human odors according to claim 26 wherein at least one of said first and second articles of clothing is adapted to cover the pelvic regions of a person wearing the said first and second articles of clothing.

36. (Original) A system for reducing human odors according to claim 26 wherein at least one of said first and second articles of clothing is adapted to cover at least a portion of the face of a person wearing said first and second articles of clothing.

37. (Original) A system for reducing human odors according to claim 26 wherein at least one of said first and second articles of clothing is thermally insulated.

38. (Original) A system for reducing human odors according to claim 26 wherein the odor absorbing substance incorporated in at least one of the first and second articles of clothing comprises activated charcoal.

39. (Original) A system for reducing human odors according to claim 38 wherein the activated charcoal is impregnated in said at least one of the first and second articles of clothing.

40. (Original) A system for reducing human odors according to claim 38 wherein the activated charcoal is bonded to said at least one of the first and second articles of clothing.

41. (Original) A system for reducing human odors according to claim 26 wherein the odor absorbing substance is impregnated in said at least one of the first and second articles of clothing.

42. (Original) A system for reducing human odors according to claim 26 wherein the odor absorbing substance is bonded to said at least one of the first and second articles of clothing.

43. (Original) A system for reducing human odors according to claim 26 wherein at least one of said first and second articles of clothing is a shirt.

44-71. (Cancelled)

72. (Currently Amended) An article of clothing adapted to worn while hunting wildlife and to cover at least a portion of at least one of the torso, the waist and the head of a person wearing said article of clothing, the article being air permeable and comprising:

an odor absorbing substance incorporated into the article of clothing wherein the odor absorbing substance is susceptible to reactivation through the act of drying the article of clothing; and

at least one of a bright, highly visible color scheme and camouflage color scheme provided on an exterior surface of said article of clothing;

whereby the odor absorbing substance absorbs a sufficient amount [at least a portion] of the odors emanating from the wearer of said article of clothing so that the wearer may be in close proximity to the wildlife without the [thereby reducing the chances of] wildlife detecting the wearer through the sense of smell.

73. (Original) An article of clothing according to claim 72 wherein the odor absorbing substance comprises activated charcoal.

74. (Original) An article of clothing according to claim 73 wherein the activated charcoal is in the range of 5 g/m² to 120 g/m².

75. (Original) An article of clothing according to claim 73 wherein the article of clothing is water repellant.

76. (Original) An article of clothing according to claim 73 wherein the article of clothing is water resistant.

77. (Original) An article of clothing according to claim 73 wherein the article of clothing is thermally insulated.

78. (Original) An article of clothing according to claim 73 wherein said article of clothing comprises a coat.

79. (Original) An article of clothing according to claim 73 wherein said article of clothing comprises a one-piece body suit.

80. (Original) An article of clothing according to claim 73 wherein said article of clothing comprises a mask.

81. (Original) An article of clothing according to claim 73 wherein said article of clothing comprises a hat.

82. (Original) An article of clothing according to claim 73 wherein said article of clothing comprises a shirt.

83. (Original) An article of clothing according to claim 73 wherein said article of clothing comprises a pair of pants.

84. (Cancelled)

85. (Original) An article of clothing according to claim 73 wherein the article of clothing comprises a base layer and the activated charcoal is impregnated into the base layer.

86. (Original) An article of clothing according to claim 73 wherein the article of clothing comprises a base layer and the activated charcoal is bonded to the base layer.

87. (Original) An article of clothing according to claim 72 wherein the article of clothing comprises a base layer and the odor absorbing substance is impregnated into the base layer.

88. (Original) An article of clothing according to claim 72 wherein the article of clothing comprises a base layer and the odor absorbing substance is bonded to the base layer.

89. (Original) An article of clothing according to claim 72 wherein the article of clothing is water resistant.

90. (Original) An article of clothing according to claim 72 wherein the article of clothing is thermally insulated.

91. (Original) An article of clothing according to claim 72 wherein said article of clothing comprises a coat.

92. (Original) An article of clothing according to claim 72 wherein said article of clothing comprises a one-piece body suit.

93. (Original) An article of clothing according to claim 72 wherein said article of clothing comprises a shirt.

94. (Original) An article of clothing according to claim 72 wherein said article of clothing comprises a mask.

95. (Original) An article of clothing according to claim 72 wherein said article of clothing comprises a hat.

96. (Original) An article of clothing according to claim 72 wherein said article of clothing comprises a pair of pair of pants.

97. (Original) An article of clothing according to claim 72 wherein the odor absorbing substance is susceptible to reactivation through the act of washing and drying the article of clothing.

98. (Original) An article of clothing according to claim 97 wherein the odor absorbing substance comprises activated charcoal.

99. (New) A system for reducing human odors while hunting wildlife comprising:
a first article of clothing adapted to cover one of the torso region and groin region
of a person wearing the first article of clothing,

the first article of clothing being air permeable and incorporating an odor
absorbing substance in an amount sufficient to reduce the naturally occurring body odors
of a person wearing said article of clothing,

the odor absorbing substance being susceptible to reactivation through the
act of washing and drying the first article of clothing, and

at least one of a bright, highly visible color scheme and camouflage color
scheme provided on an exterior surface of said first article of clothing; and

a second article of clothing being air permeable and incorporating the odor
absorbing substance in an amount sufficient to reduce the naturally occurring body odors of a
person wearing said second article of clothing;

wherein the odor absorbing substance of the first and second articles of clothing,
when worn by an individual, combine to reduce the odors emanating from the wearer in an
amount sufficient to reduce the chance of detection of the wearer by wildlife having an acute
sense of smell thereby permitting the wearer to be in close proximity to the wildlife.

100. (New) A system for reducing human odors according to claim 99, wherein the
first article of clothing comprises an upper body cover, wherein the second article of clothing
comprises a lower body cover, and wherein portions of one of the first and second articles of
clothing are designed to overlap portions of the other of the first and second articles of clothing.

101. (New) A system for reducing human odors according to claim 100, wherein the
portions of the first and second articles of cloth overlap in the area of a waist

102. (New) A system for reducing human odors according to claim 100, further comprising a third article of clothing being air permeable and incorporating the odor absorbing substance in an amount sufficient to reduce the naturally occurring body odors of a person wearing said third article of clothing, the third article comprising at least one of gloves and mittens, and wherein portions of the third article are designed to overlap other portions of the first article.

103. (New) A system for reducing human odors according to claim 102, wherein the first, second, and third articles of clothing are abrasion resistant.

104. (New) A system for reducing human odors according to claim 103, wherein the first, second, and third articles of clothing are nontoxic.

105. (New) A system for reducing human odors according to claim 104, wherein the first, second, and third articles of clothing are nonflammable.

106. (New) A system for reducing human odors according to claim 105, further comprising a fourth article of clothing being air permeable and incorporating the odor absorbing substance in an amount sufficient to reduce the naturally occurring body odors of a person wearing said fourth article of clothing, the fourth article comprising a head covering adapted to substantially cover a head and neck region of a person, and including an open portion thereof provided to allow the person to see therethrough.

107. (New) An article of clothing adapted to cover at least a portion of at least one of the torso, the waist and the head of a person wearing said article of clothing, the article being air permeable and comprising:

an odor absorbing substance incorporated into the article of clothing, whereby the odor absorbing substance absorbs at least a portion of the odors emanating from the wearer of said article of clothing thereby reducing the chances of wildlife detecting the wearer through the sense of smell,

wherein the odor absorbing substance is susceptible to reactivation through the act of washing and drying the article of clothing;

wherein the odor absorbing substance comprises activated charcoal in the range of 5 g/m² to 120 g/m²;

wherein the article of clothing comprises a base layer and the activated charcoal is impregnated into the base layer;

at least one of a bright, highly visible color scheme and camouflage color scheme provided on an exterior surface of said article of clothing; and

wherein the article of clothing is thermally insulated.

108. (New) An article of clothing according to claim 107, wherein the article of clothing is abrasion resistant.

109. (New) An article of clothing according to claim 108, wherein the article of clothing is nontoxic.

110. (New) An article of clothing according to claim 109, wherein the article of clothing is nonflammable.

111. (New) An article of clothing according to claim 110, wherein the article comprises a head covering adapted to substantially cover a head and neck region of a person, and including an open portion thereof provided to allow the person to see therethrough.

112. (New) An article of clothing according to claim 111, wherein the article further comprises a breath shield incorporated directly into the head covering.

113. (New) An article of clothing according to claim 2, wherein the article of clothing is abrasion resistant.

114. (New) An article of clothing according to claim 2, wherein the article of clothing is nontoxic.

115. (New) An article of clothing according to claim 2, wherein the article of clothing is nonflammable.

116. (New) A system for reducing human odors according to claim 26, wherein at least one of the first and second articles is abrasion resistant.

117. (New) A system for reducing human odors according to claim 26, wherein at least one of the first and second articles is nontoxic.

118. (New) A system for reducing human odors according to claim 26, wherein at least one of the first and second articles is nonflammable.

119. (New) An article of clothing according to claim 73, wherein the article of clothing is abrasion resistant.

120. (New) An article of clothing according to claim 73, wherein the article of clothing is nontoxic.

121. (New) An article of clothing according to claim 73, wherein the article of clothing is nonflammable.
